A WATCH TO BENEFIT CONTINUED ALS RESEARCH WITH DR. BEDLACK AT DUKE UNIVERSITY

The ORIS Divers "DWC for ALS Edition

This year, we chose to partner with ORIS Watches to create a truly special edition of 100 watches in support of ending ALS!

ORIS is an independent watchmaker out of Holstein, Switzerland specializing in water resistant, automatic, swiss made timepieces

All profits from this project will go to Dr. Bedlack's team at Duke University for continued groundbreaking research.

This is the very first time ORIS has created a custom watch for any private organization

The Dial

The dial of the watch is incredibly special. It features applied "DWC" markers at the 12, 3, and 9 o'clock position symbolizing Demetre Watch Club

In addition, the Demetre Watch Club name is featured in red text at the 6 o'clock position of the dial.

The Case Back

Each case back features a uniquely numbered edition, details from the Demetre Watch Club challenge coin commissioned a few years ago, as well as the “END ALS” inscription in the center.

Additional Images of the Watch

How To Order:

Each watch is \$3,200 with all profits benefiting the cause. Below is a link to more information on the timepiece including the order form:
